

Additional installation restrictions may apply. Please contact Freedom Scientific (<http://www.freedomscientific.com>) for details.

- o Limitations

To make use of the SAP GUI integration JAWS should be run in structured mode.

- o How to upgrade your JAWS version

Please uninstall the screen reader extension before you uninstall the old JAWS version. Then install the new JAWS version and finally re-install the screen reader extension. If you would like to use several JAWS versions in parallel, please have a look at note 893585. This note explains how to manually install the scripts.

This note does not represent any promise or obligation on SAP's part to make any aspect of the software accessible, nor any application applying mentioned product patches and/or adhering to the described procedure accessible.

Header Data

Release Status: Released for Customer
Released on: 23.08.2007 09:24:57
Priority: Recommendations/additional info
Category: Consulting

Main Component BC-FES-SCR Please use BC-FES-GUI (see note 1060949)
