OFFICE OF STATE CONTROLLER TO HOLD eCOMMERCE CONFERENCE OCT. 30 *To Help Agencies Across State Government Be More Efficient Through the Use of eCommerce*

RALEIGH – State Controller David McCoy announced today that the Office of the State Controller (OSC) will hold an eCommerce conference for State agencies, as well as the universities and community colleges. The goal of the conference is to assist agencies in identifying how to make their business processes more efficient and secure by using OSC’s eCommerce initiatives for disbursement, collection of funds, form automation and digital signatures.

The conference is *Tuesday, Oct. 30 from 8:30 to 4:45 p.m. at the McKimmon Center in Raleigh.*

4:45 pm Adjourn

Media are welcome.

From the passage of Senate Bill 222 in 1999 to House Bill 200 in 2011, the North Carolina General Assembly has tasked the Office of the State Controller (OSC) with taking the lead in expanding the State's electronic commerce program. The use of eCommerce has allowed the State to continue toward its goal of shifting to 21st century tools that help agencies move to digital and electronic processes and away from a labor-intensive, paper-based environment.

The State Controller is North Carolina's chief fiscal officer. The Office of the State Controller serves as an independent resource to ensure the financial integrity of the State by providing accounting, disbursing, payroll, internal control, data management, eCommerce and financial reporting systems that serve state agencies, employees and the public and by maximizing financial return through its statewide cash management plan. The OSC issues numerous financial reports including: General Fund Monthly Financial Report, IT Expenditures Report, Statewide Accounts Receivable Report, the State's Comprehensive Annual Financial Report (CAFR) as well as the short, easy-to-read version of the CAFR known as the "popular" report.
